Hello! I am very excited to meet and teach your students this year! Here is a quick list of items that your students will need to succeed throughout the year. I mentioned what they will need and why they will need it above! The school will be hosting a “Back to School Night” at the beginning of the new school year and I will reintroduce myself and state what the expectations are for my students inside and outside of the classroom.

DO NOT BUY LIST:	WHY?
Markers	They bleed through writing assignments, hard to read when markers bleed through.

Personal Pencil Sharpeners	Students tend to play with these and sharpen their own pencils during instruction. I will have a classroom sharpener in the room, students will not be encouraged to bring their own.
Pens	Students will not be needing pens due to always needing to use pencils. Students cannot erase pen.
Personal Hand Sanitizer	Students will have sanitizer in the classroom and I will let them use it when it is needed. Students tend to play with the small hand sanitizers instead of using them for their true purpose.
Binders/Binder Organizers	I keep my classwork very neat and students will not need to use a binder/binder organizers due to having separate notebooks for all subjects.
